

PILLAR STEEL TG

REF.NO. 3C4460A

Galvanised-steel oval connector with triplex twist-lock gate, ideal in harsh environments and particularly recommended to set up anchors or for use with large-section devices (e.g. pulleys, ascenders and mobile fall arresters, etc.).

Main features:

- symmetrical shape and optimal radius for rope insertion;
- high strength, which allows the connector to be used as a carabiner for progression;
- equipped with catch-free closure for effortless clipping.

TECHNICAL FEATURES

Sizes 110 x 61 mm	 30 kN	 15 kN	 10 kN	 193	 22 mm
