

Robust, adjustable positioning seat developed for suspended working.

Main features:

- broad, padded seat for maximum comfort and excellent stability;
- rigid edges stop suspension straps pressing on operator's thighs;
- adjustable side straps with autoblocking buckles;
- to be used with a full body harness with 5 attachment points;
- equipped with four sturdy gear loops, directly connected to the supporting plate and with three gear loops located underneath, for a convenient distribution of loads.

Attention! Not to be used as a PPE.
